

Checklist

Contract manufacturing

With this checklist, we want to provide our customers with a guide to help them submit all the documents we need to process their request quickly and reliably.

Our sales, production, development and purchasing team will respond to your inquiry as quickly as possible. We need as complete a set of production data as possible so that we can make you an offer.

Product / project name	
Quantity	
Desired staggering in the offer	
Delivery date / deadline	

The following table contains the required documents and the possible formats for assembly.

Document type	Format	Remark	
Bill of materials (BOM)	Excel, Word, TXT, ODT		
Pick and place data*	Excel, Word, TXT, ODT		
Assembly plan	Excel, Word, PDF, TXT, ODT		
Layout data	Gerber, Eagle, ODB2		
PCB material	Excel, Word, PDF, TXT, ODT		
(thickness, PCB			
material, layer			
structure, coating)			

* Format of the table: X-position;Y-position;Rotaion;Identifier;Part number

z.B. 95.6;85.2;270;C1;GRM188R6YA106MA73D

Layout Detail	
Fiducial pick	For automatic pick and place 2 diagonal cicles, bare copper, no screen, min.
and place	1mm diameter (ideal 1.5 mm)
Fiducial	ideally 2 squares, bare copper, no screen, min. 1mm length parallel to the
solder paste	long side outline
Component	For smaller than 0201 and BGAs components please provide minimum pitch
size	information
Irregular PCB	For irregular shapes please advise whether production in square PCB frame
shape	or pure shape in additional mount is preferd.

If it is an assembly order, the following table applies.

Document type	Format	Remark	
Assembly parts list (BOM)	Excel, Word, TXT, ODT		
Assembly instructions	Excel, Word, PDF, TXT, ODT		
Further information on mounting	Excel, Word, PDF, TXT, ODT		

Of course, this checklist cannot cover every individual case completely. It is intended to provide a starting point. Please contact us if you have more detailed questions or more complex production orders.
