VERSION: 1.4

## PRODUCT DESCRIPTION:

The DF-A0052 is a high-speed, 3-band, 5- to 3-channel commutating switch intended for switched elements direction finding applications. The switch accepts three frequency bands, each with 5 antenna elements, and routes any 3 elements of a selected band of 5 elements to any of the 3 outputs. The switch is designed to be mounted internally within the weatherproof cavity of the DF-A0029, DF-A0031 and DFA0037 direction finding antennas.

The switch comprises 5 parallel channels, each equipped with input power limiters, ESD protection, low noise amplifier and band switch. A "calibration band" can also be selected, providing a balanced 5 -way split of an internally generated or externally supplied calibration signal, for chain and receiver calibration. Each channel features a low-noise amplifier, within the calibration chain, to help overcome switch and cable loss. The switch accepts a very wide input voltage range and is controlled via hardwired logic lines or an EIA-485 (RS-485) interface. All switching is solid state for rapid commutation and unlimited switching cycles.

## PRODUCT FEATURES:

- 3-band, 5 - to 3-channel commutating switch
- Low noise amplifier on each channel
- Wideband internal noise source for chain calibration
- External injection mode for chain calibration
- High-speed solid state switching
- Limiter and ESD protection on each input in order to allow operation in adverse EM environments

## APPLICATIONS:

- DF band switching for Alaris' range of DF antennas, particularlv. the DF-A0029. DF-A0031 and DF-A0037

# High-Speed DF Antenna Commutating Switch 

$1-3600 \mathrm{MHz}$
Product Code: DF-A0052

## SPECIFICATIONS:

| Electrical: DF chain |  |  |
| :---: | :---: | :---: |
| Frequency range |  | $1-3600 \mathrm{MHz}$ |
| Frequency bands |  | Band A: $1-500 \mathrm{MHz}$ |
|  |  | Band B: $100-2000 \mathrm{MHz}$ |
|  |  | Band C: $500-3600 \mathrm{MHz}$ |
| Input VSWR |  | <2.5:1 |
| Gain (typical) | 100 MHz | $10 \pm 0.5 \mathrm{~dB}$ |
|  | 1000 MHz | $13 \pm 1 \mathrm{~dB}$ |
|  | 3000 MHz | $15 \pm 2 \mathrm{~dB}$ |
| Noise figure |  | $<10 \mathrm{~dB}$ |
| OIP3 (typical) | $<1000 \mathrm{MHz}$ | 30 dBm |
|  | $>1000 \mathrm{MHz}$ | 27 dBm |
| Maximum input level |  | 30 dBm CW, <br> 45 dBm at $1 \%$ duty factor in $1 \mu \mathrm{~s}$ pulse |
| Input connectors |  | SMA female |
| Output connectors |  | SMA female |
| Electrical: CAL chain |  |  |
| Amplitude imbalance |  | $<3 \mathrm{~dB}$ |
| Phase imbalance |  | $<25^{\circ}$ |
| Gain (typical) | 100 MHz | $-10 \pm 2 \mathrm{~dB}$ |
|  | 1000 MHz | $-8 \pm 2 \mathrm{~dB}$ |
|  | 3000 MHz | $-10 \pm 3 \mathrm{~dB}$ |
| Max input level |  | 20 dBm |
| Internal noise source output level |  | +35 to +60 dB ENR |
| Input connector |  | SMA female |
| Power and control: |  |  |
| Power supply |  | 19-36V DC, 1 A |
| Control interface |  | EIA-485 (RS-485), hardwired lines |
| Total switching time |  | $<150 \mu \mathrm{~S}$ |
| Time to receive control byte (RS-485, 115.2 kbps ) |  | < $100 \mu \mathrm{~S}$ |
| Total switching time |  | $<150 \mu \mathrm{~S}$ |
| External strobe latency |  | < $5 \mu \mathrm{~S}$ |
| Mechanical: |  |  |
| Dimensions |  | $317 \mathrm{~mm} \times 168 \mathrm{~mm} \times 80 \mathrm{~mm}$ |
| Total mass |  | $<4 \mathrm{~kg}$ |
| External material |  | Aluminium |
| Environmental: designed to meet the following specifications |  |  |
| Temperature range |  | $-20 \bigcirc$ - to $+70 \bigcirc$ |
| Vibration |  | $0.02 \mathrm{~g}^{2} / \mathrm{Hz}, 2-300 \mathrm{~Hz}$ |
| Shock |  | 40 G for 10 ms |
| Thermal shock |  | $-20{ }^{\circ} \mathrm{C}$ to $+70{ }^{\circ} \mathrm{C}$ |
| Water ingress rating |  | IP54 |
