

### VERSION: 2.4

## High Gain Mobile Omni Antenna

2.4 - 2.5 GHz

Product Code: OMNI-A0130

#### **SPECIFICATIONS:**

| Electrical:                  |                                  |
|------------------------------|----------------------------------|
| Frequency range              | 2400 – 2500 MHz                  |
| VSWR                         | < 2.0:1                          |
| Nominal input impedance      | 50 Ω                             |
| Connector                    | N-type female                    |
| Feed power handling          | 50 W                             |
| Gain                         | 6.0 dBi ± 1 dB                   |
| E-plane 3 dB beamwidth       | 22º                              |
| H-plane 3 dB beamwidth       | 360°                             |
| Polarisation                 | Vertical                         |
| Mechanical:                  |                                  |
| Dimensions (I x d)           | 450 mm x 135 mm                  |
| Weight                       | < 1 kg                           |
| Mounting method              | NATO flange 4 and 6 holes        |
| Environmental: designed to m | eet the following specifications |
| Wind survival                | 160 km/h                         |
| Temperature (operational)    | - 30 °C to +70 °C                |
| Water ingress rating         | IP 65 (NEMA 4X)                  |
| RoHS                         | Compliant                        |

#### **PRODUCT FEATURES:**

- 50 W continuous power handling
- Gain of 6.5 dBi
- Self-contained balanced antenna, no groundplane required
- Spring-mounted whip
- Omni-directional H-plane (azimuth) pattern
- RoHS compliant

#### **APPLICATIONS:**

- RCIED signal suppression
- VIP protection
- Convoy protection

#### PRODUCT DESCRIPTION:

The OMNI-A0130 is a high gain omni-directional antenna that has been designed to be used in high-powered transmit applications to suppress signals in applications like convoy protection and for RCIED. The design of this antenna allows it to bend up to 70°.

The OMNI-A0130 has an omni-directional azimuth pattern with a low level of ripple to ensure all-round protection and an elevation pattern that shows no pattern break-up. This antenna is rated for 50 W indefinite continuous duty power handling.
