

# Antenna Mast Mount

## MS256

The MS256 antenna mast mount is a professional installation solution for mounting a monopole antenna onto a mast. The MS256 provides, in addition to the necessary mechanical interface, a suitable ground plane for the antenna with four radials.

- Rugged and compact construction
- Quick and easy to set up

| Product details*  |  |
|---|--|
| Standard color  | Black                                  |
| Material  | Aluminium alloy                        |
| Height & Width  | See Page 2 for dimensions              |
| Weight  | 4.1 kg                                 |
| Optimized for antennas operating within the frequency range | 20 – 520 MHz<br>e.g. WBC256B, WB30512M |

\*Specific adjustments on request

| Installation*  |  |
|----------------|--|
| Antenna mount  | 4-bolt US pattern                              |
| Mast interface | Mast top mounting on a Ø 64-79 mm tubular mast |

\*Specific adjustments on request

| Order number | NSN             | Product  |
|--------------|-----------------|--|
| MS256        | 5985-58000-9236 | Product as described above   |
| MS256-F2     | -               | Product as described above, but in olive green (Teknos AN11/AN100) color |
| MS256-F3     | -               | Product as described above, but in pure white (RAL9010) color            |
