

Model: OA06P1-55-S

Vertically polarized C-band airborne omnidirectional antenna

- Operating frequency band: 5.25-5.85 GHz
- Nominal gain over full operating band: 6 dBi.
- Elevation HPBW: 17.5 degrees nominal
- Return Loss: 14 dB (1.5:1 VSWR)
- Input: SMA female

- Rugged polymer radome and aluminum mounting base
- Designed for harsh environments and a long-life cycle

- Weight: .25 pounds, overall length < 6.5 inches
